## **Abstract**

The *talaqqi musyafahah* method in learning the Qur'an is a method that was used by the Prophet Muhammad SAW when studying the Qur'an with Jibril A.S. This method, from age to age, has been used as a basic method in learning the Qur'an. In this writing, several things will be highlighted, among them the concept of *talaqqi musyafahah*, the application of the *talaqqi musyafahah* method in learning the Qur'an as well as some of the benefits of applying the *talaqqi musyafahah* method. This study uses a quantitative research method by analyzing several articles and several reference sources to see more extensive findings to ensure that the debate related to the *talaqqi musyafahah* method in learning the Qur'an can be properly discussed. The results prove that this *talaqqi musyafahah* method is a very important basic method in learning the Quran and this method needs to be maintained. Deeper studies and more extensive innovations can be implemented to make this method more interesting and who want to learn the Quran will get benefit from it in line with the progress of globalization today. This innovation will also give a better effect to ensure that the Quran continues to be protected and preserved from generation to generation
